<sup>1</sup> These metrics, including intensity metrics calculated using net revenue, can also be found in the ESG Performance Index of our 2023 Sustainability Report starting on page 110

<sup>2</sup> The Zurn Elkay merger was completed in July 2022. Metrics shown in this table are calculated pro forma as if Zurn Elkay was one company for the full year. A pro forma 2021 value was not possible to calculate for some metrics (i.e., non-GHG emissions and water withdrawn). We will continue reporting these in future years.
